

SQC – SALES QUOTE CLAUSE

- 1.0 Aero-Vac Alloys & Forge, Inc. Company's Terms and Conditions apply.
- 2.0 All prices quoted in US Dollars & Subject to price in effect at time of confirmation. Material availability subject to prior sale.
- 3.0 We are not responsible for forgings that do not finish to customers sizes, unless furnished with finish dimensions.
- 4.0 AVAF is offering material cut down from a forged bar, larger cross section. We the customer (buyer) understand if purchasing that: We do not have any specific restrictions regarding cross section. Material can be cut from any size forged block that is required or we will provide maximum Thickness (ST) and Width (LT) that is permissible per customer drawing.
- 5.0 It would be our preference to have grain optional unless specified. We can match the (L) direction in the stock material to the longest direction of the requested material.
- 6.0 If buyer is sub-contracting AVAF requesting any special processes (Heat Treatment, USI, etc.) customer will provide organization (PRIME) approved process vendors.
- 7.0 Standard saw cut tolerance is $+.125"/-.00$ on all dimensions; one to three sides may have as forged scale surface condition.
- 8.0 There will be a pack charge of ten to one hundred dollars depending on invoice amount.
- 9.0 Quote is valid for 30 days.
- 10.0 Freight terms are Port of Kalama, 2615 N. Hendrickson Dr., Kalama, WA 98625, unless otherwise noted.
